

West End Water Supply Corporation
 P.O. Box 39
 Industry, TX. 78944
 979-357-2389
westendw@industryinet.com

Each month you will receive a bill like the one shown below. The bill will include the amount that is due (net amount) by the 15th of each month. There is also an amount (gross amount) included with late charges applied, if the payment is made after the 15th. **The customers are responsible for submitting a meter reading along with payment each month.** The area with the 6 squares is where you can submit the meter reading. You can also call in your meter reading, Email the reading to westendw@industryinet.com or submit via website at wewsc.com. If a meter reading is not submitted, a field operator will read the meter and a \$50.00 meter reading fee will be charged. Meter readings that are taken around the same day each month help keep the bills consistent.

Field operators read the entire system in June and December.
